

MUKESH SANKARASETTY

Product Manager | Building AI-Enabled Platforms

+91 7671024892 | sankarasettymukesh@gmail.com | [linkedin.com/in/mukesh-sankarasetty/](https://www.linkedin.com/in/mukesh-sankarasetty/) | Bangalore, India

SUMMARY

Product Manager with 3+ years of end-to-end product ownership and 10+ years in software, having built products as an iOS developer, product designer and PM. At WNS, took Optima AI from day zero to production, a unified operations platform that moved 8+ siloed teams for a UK client onto one system and cut process time by 60%. Designed its rule-based workflows and AI roadmap, and led a 25+ member cross-functional team through launch. Earlier as a lead and product designer, shipped B2B and B2C products for Samsung, Verizon, Terminix and ZF Wabco. Now seeking Product Manager / AI Product Manager roles to build products where data and AI change how people work.

SKILLS

Product Management: Product Strategy, Product Vision, Product Roadmap, End-to-End Product Lifecycle, Product Discovery, PRDs & User Stories, Feature Prioritization (RICE, Kano), MVP Definition, Go-to-Market (GTM), Success Metrics, OKRs & KPIs

Delivery & Execution: Agile / Scrum, Sprint Planning, Backlog Grooming, Release Management, UAT, Dependency & Risk Management, SDLC, A/B testing

Data & Technical: Data-Driven Decision Making, SQL, Power BI Dashboards, Firebase & Google Analytics, Funnel Analysis, Technical Architecture & APIs (working knowledge), iOS / Swift background

AI: Generative AI, LLM Fundamentals, AI Agents, Workflow Automation, Prompt Engineering

UX & Research: User Research, Usability Testing, Design Thinking, Wireframing & Prototyping, Design Systems, WCAG Accessibility, Competitive Analysis, Customer Journey Mapping

Leadership: Cross-Functional Team Leadership, Stakeholder Management, Executive Communication, Client Discovery Workshops, Global / Onshore-Offshore Collaboration, Mentoring

Domains: Insurance & BFSI, Healthcare (HIPAA), Logistics & Fleet Management, Telecom, Enterprise SaaS, B2B & B2C

Tools: JIRA, Confluence, Miro, Figma, Figma Make, Notion, VS Code, Claude Code, Codex, Lovable

PROFESSIONAL EXPERIENCE

Product Manager | WNS Global Services, Bangalore

Jun 2023 – Aug 2026

- Led Optima AI, a new unified operations platform for UK client Bamboo Connect, from day zero to production, owning vision, roadmap and backlog for the claims and QA modules that make roughly 75% of the product scope.
- Ran a 3-week onsite discovery in the UK with 20+ executives and 8+ operations teams, turning their workflows, tools and pain points into a single target-state process, 150+ user stories and a phased release plan that put claims and QA first.
- Replaced 10+ disconnected tools and manual handoffs with one platform, cutting process time by 60% per team against success metrics I defined for throughput, turnaround and error rates.
- Designed rule-based automation flows and documented 18+ AI use cases where AI could replace manual decisions, forming the product's AI roadmap for the next phase.
- Defined Claim TAT as the north-star metric with supporting KPIs, and built leadership dashboards giving each business unit live visibility into it, cutting manual reporting effort by 90%.
- Led a 25+ member team across engineering, QA, data and design in Agile sprints, re-scoping the MVP under a tight timeline to ship claims and QA on schedule. Mentored 8+ product and design team members.
- Consolidated 450+ manual legacy reports into 60 self-serve Power BI dashboards (87% fewer), giving leadership a single source of truth and saving an estimated 120+ analyst hours per month.
- Led the product redesign of Cargill's maritime simulation tool into a guided, real-time workflow, cutting processing time by 60%.

Senior Product Designer | Brillio Technologies, Bangalore

May 2022 – Jun 2023

- Partnered with product and engineering leads to modernize legacy B2B tools for Verizon, shipping 100+ screen prototypes across Agile sprints to validate flows before build.
- Redesigned onboarding for Terminix (USA) using user research and product telemetry, lifting user satisfaction scores by 35%.
- Cut design-to-dev handoff errors by 20% by writing functional specifications and building a reusable component library.

Senior UI/UX Designer | ZF Wabco, Bangalore

Aug 2021 – May 2022

- Worked with global Product Owners on a multi-module fleet management platform, turning research insights into scalable, production-ready workflows.
- Reworked dense data tables into mobile-friendly analytics views, improving real-time tracking efficiency for fleet operators by 22%.

Product Engineer & UX Designer | Ameex Technologies, Chennai

May 2016 – Aug 2021

- Started as an iOS Developer building apps in Swift, then moved into product and UX, set up the company's first in-house product practice and mentored engineers and designers across the product lifecycle.
- Owned end-to-end delivery for two enterprise healthcare products, Identifor and CareVisor, meeting HIPAA and WCAG accessibility requirements.
- Rebuilt Identifor's user assessment funnel into a gamified onboarding journey, cutting drop-offs and bounce rate by 40%.
- Delivered consumer and enterprise products for clients including Samsung, Chrysalis and ROH.

INDEPENDENT PROJECTS

PetalPost | Hyperlocal flower marketplace

- Tested a two-sided marketplace through customer interviews, merchant validation and prototype testing to understand supply and demand.
- Paused further engineering investment after testing exposed friction in the core customer loop, choosing to stop on evidence rather than build on hope.

Belvere Designs | Interior design company (belveredesigns.com)

- Built an immersive 3D website in one week using Claude Code, from brief to live site.
- Set up web-to-WhatsApp automation and AI chat agents for lead capture, cutting lead response time from 10 mins to under a minute.

Sham Stage | AI-powered rehearsal platform

- Building an MVP that lets professionals rehearse high-stakes conversations, like founder pitches and client presentations, with AI personas through a prepare → rehearse → review → improve loop.
- Running a local LLM to power the personas and keep practice sessions private.

EDUCATION

Master of Computer Applications (MCA) | Andhra Loyola College, Vijayawada | CGPA 8.2

2015
